## Terms of Admission.

---

FOR Admission into the Freshman Class, candidates are examined in Latin Grammar, Cicero's Orations, Virgil, Sallust, Greek Grammar, Xenophon's Anabasis, five Books, and Homer's Iliad, two Books, or an equivalent, Latin Prosody, Writing Latin, Geography, Arithmetic, and the elements of Algebra.

To insure a correct pronunciation of Latin, candidates should early be made familiar with the rules contained under the article "*Orthoëpy*," in the Grammar. A particular attention to Latin Prosody and Scanning, in connection with some author, as Krebs or Arnold, on Latin Composition, is also especially desirable.

Students may be admitted to an advanced standing, provided that, in addition to the requisites for admission to the Freshman Class, they are found, on examination, thoroughly acquainted with the several studies of the class which they propose to join. Candidates for such standing should, however, be informed that, in consequence of the thorough discipline of the first College year, and the exactness of knowledge which is required of classes, no one can hope, if admitted, to maintain a respectable standing, unless he comes with a high degree of previous preparation. Indeed, it is highly important to the unity and com-

pleteness of a public education, that the students should enter College at the commencement of the course. The disadvantages incurred by those who postpone an entrance to a later period, are much more serious than is commonly supposed.

Every student admitted to an advanced standing (with the exception of those who come from other Colleges), is required to pay a fee of \$5 00 if he enters after the expiration of the Fall Term of the Freshman year; and of \$10 00 if after the expiration of the Fall Term of the Sophomore year.

All candidates for admission to this College must bring a certificate of good moral character; and, if from another College, of their regular dismissal and good standing. When a young man has been examined and admitted to College, he is required to attend the prescribed exercises, and is subject to the laws of the Institution.

## Lectures.

---

### TO JUNIOR CLASS.

Natural Philosophy, first, second, and third terms.  
Chemistry, second term.  
Subjects connected with Classical Literature.

### TO SENIOR CLASS.

History of Mental Philosophy, first and second terms.  
Zoology, first term.  
Geology and Mineralogy, second term.  
Rhetoric, Oratory, and Belles-Lettres.  
Astronomy, second term.  
Anatomy and Physiology, with Illustrations.

### DECLAMATION AND COMPOSITION.

The classes speak by divisions, in the Chapel, Wednesday afternoon, for which exercise the members of the two upper classes are required to prepare original pieces. In all cases those who are to speak in the Chapel are prepared for the exercise by previous rehearsal before the Professor of Rhetoric.

Written translations from Latin and Greek into English are required of the Freshman Class every other week,

until the close of the Spring term. From that time, English Compositions are read once a week through the course.

### RECORD OF MERIT.

A class-book is kept by each instructor, in which the character of each student's recitation is noted by numbers, and all absences from College exercises are minuted. Demerit for absences and other irregularities is also marked in like manner, and made the basis of discipline. At the close of each term the average of these marks is recorded, and, when desired, communicated to parents or guardians.

### EXAMINATIONS.

At the close of the Fall Term there is a public examination of all the classes in the studies pursued during the term. At the close of the Collegiate year, the Senior Class is examined in the studies of the year, and the other classes are examined in the departments of study to which they have attended. This examination is protracted and severe, and is conducted in the presence of a committee of gentlemen appointed for the purpose, who make a report to the Corporation respecting the proficiency and deportment of the students.

### COLLEGE HONORS.

On this "*Record of Merit*," including recitations, examinations, and fidelity, the Faculty, under direction of the Corporation, have arranged a scheme of honorary appointments for the exercises of Junior Exhibition and Commencement. They have aimed to devise a plan that will secure the advantages of honorable emulation, and, at the same time, avoid many of the incidental evils of College distinctions.

### PUBLIC PERFORMANCES.

*Commencement* is held on the second Wednesday in August. The exercises in Elocution, for the Parkerian Premiums, are on the preceding evening.

On the day before Commencement, Orations are delivered before the Alumni and several Societies in the College, by gentlemen invited from abroad.

There is an Exhibition of the Junior Class at the close of the Spring Term.

### CABINET AND LIBRARIES.

The Cabinet is designed chiefly for the benefit of the classes in Natural History, but it is accessible to all the students. It contains two thousand seven hundred specimens in Zoology, four hundred in Botany, fifteen hundred specimens in Mineralogy; one thousand of which, presented by the State, are separately arranged.

These specimens are all arranged under their respective classes, and conspicuously labeled. Valuable accessions have been received from some of the Alumni, and the aid of others is requested.

Besides the College Library, the Institution contains valuable Libraries belonging to the Philomathesian and Philadelphian Societies. All these are opened weekly—on Wednesday—and are accessible to all the students.

### BENEFICENT FUNDS.

The College is possessed of funds to the amount of four thousand dollars, the interest of which, as directed by the donors, is applied to the assistance of meritorious students.

The income of the Warren Fund is distributed, by direction of the donor, among those members of College

who are preparing for the Gospel Ministry, in different sums, according to the necessities of the individual.

The income of the Literary Fund is awarded in sums of from *ten* to *twenty-five* dollars, to three or four members of College, whose scholarship and fidelity in the discharge of their duties may entitle them to such a distinction.

The avails of the Parkerian Funds are expended in Premiums, awarded to one or two individuals in each of the three lower classes, selected from those who speak in public the evening before Commencement.

A Scholarship Fund has recently been secured, which may be made available to those whose circumstances require it. The control of these scholarships is in the hands of individual proprietors; but young men of good character and correct deportment can usually obtain assistance from this source. The scholarship pays tuition, \$27 00.

Those who have the Ministry in view may receive from the Warren Fund \$13 00, or a sum which, with a scholarship, will discharge the whole amount of Term bills. They can also receive from the American Education Society, annually, the sum of \$80 00. These several sums will amount to \$120 00; and this, together with the avails of teaching three months in winter, will nearly, if not entirely, defray *all* necessary expenses, board, tuition, books, clothing, &c.

### EXPENSES.

The following statement embraces the principal expenses for the year, viz:

Tuition, \$9 per term.....	\$27 00
Room Rent (if two occupy a room), \$2.....	6 00
Use of Library, Repairs, Sweeping, &c, \$2.....	6 00
Board, from \$1 87 to \$2 25 per week, amounting to about.....	75 00
Fuel, Lights, and Washing.....	16 00
	<hr/>
	\$130 00

Juniors and Seniors are charged with a fee of sixty seven cents a term, to defray the expenses of the Laboratory and Cabinet.

A student who is disposed to practice economy in his habits of living, will find the following a pretty accurate statement of necessary expenses,—on the supposition that he teaches school in winter:

Board in Club, 34 weeks, at \$1 50 per week.....	\$51 00
Tuition, \$27 00; other charges in College bills, \$13 00.....	40 00
Fuel, Lights, and Washing.....	16 00
	<hr/>
	\$107 00

### PAYMENT OF BILLS.

[Extract from College Laws.]

"The several sums charged in the Term Bills shall be considered as due and payable as soon as the bills are made up according to law; and the Treasurer shall be authorized to demand the same immediately on the bills being delivered to him for collection, with interest on them till they are paid. And, in all cases where the Term Bills of students are not paid within three months after they shall have become due, it shall be the duty of the Treasurer to report the same to the Faculty, and the duty of the Faculty to call the delinquent before them; and if no satisfactory reason for the delinquency be assigned, either to write to their parents or guardian, or suspend them from the privileges of the Institution till payment shall have been made."

To prevent any unnecessary expenses, as well as for other important purposes, it is recommended to parents to place their sons, especially if young, under the patronage of some gentleman in Middlebury, who will attend to the appropriation of their money and the payment of their bills.

### DEGREE OF MASTER OF ARTS.

The degree of A. M. will be conferred on graduates of three years' standing, who have been engaged in literary pursuits, on payment of the usual fee of four dollars. Application should be made to the President or Treasurer as early as the day before Commencement.

## Terms of Admission.

---

FOR Admission into the Freshman Class, candidates are examined in Latin Grammar, Cicero's Orations, Virgil, Sallust, Greek Grammar, Xenophon's Anabasis, five Books, and Homer's Iliad, two Books, or an equivalent, Latin Prosody, Writing Latin, Geography, Arithmetic, and the elements of Algebra.

To insure a correct pronunciation of Latin, candidates should early be made familiar with the rules contained under the article "*Orthoëpy*," in the Grammar. A particular attention to Latin Prosody and Scanning, as well as familiarity with some author, as Krebs or Arnold, on Latin Composition, is also especially desirable.

Students may be admitted to an advanced standing, provided that, in addition to the requisites for admission to the Freshman Class, they are found, on examination, thoroughly acquainted with the several studies of the class which they propose to join. Candidates for such standing should, however, be informed that, in consequence of the thorough discipline of the first College year, and the exactness of knowledge which is required of classes, no one can hope, if admitted, to maintain a respectable standing, unless he comes with a high

degree of previous preparation. Indeed, it is highly important to the unity and completeness of a public education, that the students should enter College at the commencement of the course. The disadvantages incurred by those who postpone an entrance to a later period, are much more serious than is commonly supposed.

Every student admitted to an advanced standing (with the exception of those who come from other colleges), is required to pay a fee of \$5.00 if he enters after the expiration of the Fall Term of the Freshman year; and of \$10.00 if after the expiration of the Fall Term of the Sophomore year.

All candidates for admission to this college must bring a certificate of good moral character; and, if from another College, of their regular dismissal and good standing. When a young man has been examined and admitted to College, he is required to attend the prescribed exercises, and is subject to the laws of the Institution.

## Lectures.

---

### TO JUNIOR CLASS.

Natural Philosophy, first, second, and third terms.

Chemistry, second term.

Subjects connected with Classical Literature.

### TO SENIOR CLASS.

History of Mental Philosophy, first and second terms.

Zoology, first term.

Geology and Mineralogy, second term.

Rhetoric, Oratory, and Belles-Lettres.

Astronomy, second term.

Anatomy and Physiology, with Illustrations.

### DECLAMATION AND COMPOSITION.

The classes speak by divisions, in the Chapel, Wednesday afternoon, for which exercise the members of the two upper classes are required to prepare original pieces. In all cases those who are to speak in the Chapel are prepared for the exercise by previous rehearsal before the Professor of Rhetoric.

Written translations from Latin and Greek into English are required of the Freshman Class every alternate week, until the

close of the Spring term. From that time, English Compositions are read once a week through the course.

### RECORD OF MERIT.

A class-book is kept by each instructor, in which the character of each student's recitation is noted by numbers, and all absences from College exercises are minuted. Demerit for absences and other irregularities is also marked in like manner, and made the basis of discipline. At the close of each term the average of these marks is recorded, and, when desired, communicated to parents or guardians.

### EXAMINATIONS.

At the close of the Fall Term there is a public examination of all classes in the studies pursued during the term. At the close of the Collegiate year, the Senior Class is examined in the studies of the year, and the other classes are examined in the departments of study to which they have attended. This examination is protracted and severe, and is conducted in the presence of a committee of gentlemen appointed for the purpose, who make a report to the Corporation respecting the proficiency and deportment of the students.

### COLLEGE HONORS.

On this "*Record of Merit*," including recitations, examinations, and fidelity, the Faculty, under direction of the Corporation, have arranged a scheme of honorary appointments for the exercises of Junior Exhibition and Commencement. They have aimed to devise a plan that will secure the advantages of honorable emulation, and, at the same time, avoid many of the incidental evils of College distinctions.

**PUBLIC PERFORMANCES.**

*Commencement* is held on the second Wednesday in August. The exercises in Elocution, for the Parkerian Premiums, are on the preceding evening.

On the day before Commencement, Orations are delivered before the several Societies in College, by gentlemen invited from abroad.

There is an Exhibition of the Junior Class at the close of the Spring Term.

**CABINET AND LIBRARIES.**

The Cabinet is designed chiefly for the benefit of the classes in Natural History, but it is accessible to all the students. It contains two thousand seven hundred specimens in Zoology ; four hundred in Botany ; fifteen hundred specimens in Mineralogy ; one thousand of which, presented by the State, are separately arranged.

These specimens are all arranged under their respective classes, and conspicuously labeled. Valuable accessions have been received from some of the Alumni, and the aid of others is requested.

Besides the College Library, the Institution contains valuable Libraries belonging to the Philomathesian and Philadelphian Societies. All these are opened weekly—on Wednesday—and are accessible to all the students.

**BENEFICENT FUNDS.**

The College is possessed of funds to the amount of four thousand dollars, the interest of which, as directed by the donors, is applied to the assistance of meritorious students.

The income of the Warren Fund is distributed, by direction of the donor, among those members of College who are pre-

paring for the Gospel Ministry, in different sums, according to the necessities of the individual.

The income of the Literary Fund is awarded in sums of from *ten* to *twenty-five* dollars, to three or four members of College, whose scholarship and fidelity in the discharge of their duties may entitle them to such a distinction.

The avails of the Parkerian Funds are expended in Premiums, awarded to one or two individuals in each of the three lower classes, selected from those who speak in public the evening before Commencement.

A Scholarship Fund has recently been secured, which may be made available to those whose circumstances require it. The control of these scholarships is in the hands of individual proprietors; but young men of good character and correct deportment can usually obtain assistance from this source. The scholarship pays tuition, \$27.00.

Those who have the Ministry in view may receive from the Warren Fund \$13.00, or a sum which, with a scholarship, will discharge the whole amount of Term bills. They can also receive from the American Education Society, annually, the sum of \$80.00. These several sums will amount to \$120.00; and this, together with the avails of teaching three months in Winter, will nearly if not entirely, defray *all* necessary expenses, board, tuition, books, clothing, &c.

### EXPENSES.

The following statement embraces the principal expenses for the year, viz :

Tuition, \$9 per term.....	\$27.00
Room Rent (if two occupy a room), \$2.....	6.00
Use of Library, Repairs, Sweeping, &c., \$2.....	6.00
Board, from \$1.87 to \$2.25 per week, amounting to about....	75.00
Fuel, Lights, and Washing.....	15.00
	<hr/>
	\$130.00

Juniors and Seniors are charged with a fee of sixty seven cents a term, to defray the expenses of the Laboratory and Cabinet.

A student who is disposed to practice economy in his habits of living, will find the following a pretty accurate statement of necessary expenses,—on the supposition that he teaches school in Winter:

Board in Club, 34 weeks, at \$1.50 per week.....	\$51.00
Tuition, \$27.00; other charges in College bills, \$13.00.....	40.00
Fuel, Lights, and Washing.....	16.00
	<hr/> \$107.00

### PAYMENT OF BILLS.

[Extract from College Laws.]

“The several sums charged in the Term Bills shall be considered as due and payable as soon as the bills are made up according to law; and the Treasurer shall be authorized to demand the same immediately on the bills being delivered to him for collection, with interest on them till they are paid. And, in all cases where the Term Bills of students are not paid within three months after they shall have become due, it shall be the duty of the Treasurer to report the same to the Faculty, and the duty of the Faculty to call the delinquents before them; and if no satisfactory reason for the delinquency be assigned, either to write to their parents or guardians, or suspend them from the privileges of the Institution till payment shall have been made.”

To prevent any unnecessary expenses, as well as for other important purposes, it is recommended to parents to place their sons, especially if young, under the patronage of some gentleman in Middlebury, who will attend to the appropriation of their money and the payment of their bills.

### DEGREE OF MASTER OF ARTS.

The degree of A. M. will be conferred on graduates of three years' standing, who have been engaged in literary pursuits, on payment of the usual fee of four dollars. Application should be made to the President or Treasurer as early as the day before Commencement.

## Terms of Admission.

For Admission into the Freshman Class, candidates are examined in Latin Grammar, Cicero's Orations, Virgil, Sallust, Greek Grammar, Xenophon's Anabasis, five Books, and Homer's Iliad, two Books, or an equivalent, Latin Prosody, Writing Latin, Geography, Arithmetic, and the elements of Algebra.

To insure a correct pronunciation of Latin, candidates should early be made familiar with the rules contained under the article "*Orthoëpy*," in the Grammar. A particular attention to Latin Prosody and Scanning, as well as familiarity with some author, as Krebs or Arnold, on Latin Composition, is also especially desirable.

Students may be admitted to an advanced standing, provided that, in addition to the requisites for admission to the Freshman Class, they are found, on examination, thoroughly acquainted with the several studies of the class which they propose to join. Candidates for such standing should, however, be informed that, in consequence of the thorough discipline of the first College year, and the exactness of knowledge which is required of classes, no one can hope, if admitted, to maintain a respectable standing, unless he comes with a high degree of previous preparation. Indeed, it is highly important to the unity and com-

pleteness of a public education, that the students should enter College at the commencement of the course. The disadvantages incurred by those who postpone an entrance to a later period, are much more serious than is commonly supposed.

Every student admitted to an advanced standing (with the exception of those who come from other Colleges), is required to pay a fee of \$5.00 if he enters after the expiration of the Fall Term of the Freshman year; and of \$10.00 if after the expiration of the Fall Term of the Sophomore year.

All candidates for admission to this College must bring a certificate of good moral character; and, if from another College, of their regular dismissal and good standing. When a young man has been examined and admitted to College, he is required to attend the prescribed exercises, and is subject to the laws of the Institution.

## DECLAMATION AND COMPOSITION.

The classes speak by divisions, in the Chapel, Wednesday afternoon, for which exercise the members of the two upper classes are required to prepare original pieces. In all cases those who are to speak in the Chapel are prepared for the exercise by previous rehearsal before the Professor of Rhetoric.

Written translations from Latin and Greek into Eng-

lish are required of the Freshman Class every alternate week, until the close of the Spring term. From that time, English Compositions are read once a week through the course.

### RECORD OF MERIT.

A class-book is kept by each instructor, in which the character of each student's recitation is noted by numbers, and all absences from College exercises are minuted. Demerit for absences and other irregularities is also marked in like manner, and made the basis of discipline. At the close of each term the average of these marks is recorded, and, when desired, communicated to parents or guardians.

### EXAMINATIONS.

At the close of the Fall Term there is a public examination of all classes in the studies pursued during the term. At the close of the Collegiate year, the several classes are examined in the studies of the year. This examination is protracted and severe, and is conducted in the presence of a committee of gentlemen appointed for the purpose, who make a report to the Corporation respecting the proficiency and deportment of the students.

### COLLEGE HONORS.

On this "*Record of Merit*," including recitations, examinations, and fidelity, the Faculty, under direction of the Corporation, have arranged a scheme of honorary appointments for the exercises of Junior Exhibition and Commencement. They have aimed to devise a plan that will secure the advantages of honorable emulation, and, at the same time, avoid many of the incidental evils of College distinctions.

### PUBLIC PERFORMANCES.

*Commencement* is held on the second Wednesday in August. The exercises in Elocution, for the Parkerian Premiums, are on the preceding evening.

On the day before Commencement, Orations are delivered before the several Societies in College, by gentlemen invited from abroad.

There is an Exhibition of the Junior Class at the close of the Spring Term.

### CABINET AND LIBRARIES.

The Cabinet is designed chiefly for the benefit of the classes in Natural History, but it is accessible to all the students. It contains two thousand seven hundred specimens in Zoology; four hundred in Botany; fifteen hundred specimens in Mineralogy; one thousand of which, presented by the State, are separately arranged.

These specimens are all arranged under their respective classes, and conspicuously labeled. Valuable accessions have been received from some of the Alumni, and the aid of others is requested.

The value, to students, of the College Library, which now numbers about 10,000 volumes, has been nearly doubled by additions made during the past year.

Besides the College Library, the Institution contains valuable Libraries belonging to the Philomathesian and Philadelphian Societies. All these are opened weekly—on Wednesday—and are accessible to all the students.

### BENEFACTANT FUNDS.

The College is possessed of funds to the amount of four thousand dollars, the interest of which, as directed by the donors, is applied to the assistance of meritorious students.

The income of the Warren Fund is distributed, by direction of the donor, among those members of College who are preparing for the Gospel Ministry, in different sums, according to the necessities of the individual.

The income of the Literary Fund is awarded in sums of from *ten* to *twenty-five* dollars, to three or four members of College, whose scholarship and fidelity in the discharge of their duties may entitle them to such a distinction.

The avails of the Parkerian Funds are expended in Premiums, awarded to one or two individuals in each of the three lower classes, selected from those who speak in public the evening before Commencement.

A Scholarship Fund has recently been secured, which may be made available to those whose circumstances require it. The control of these scholarships is in the hands of individual proprietors; but young men of good character and correct deportment can usually obtain assistance from this source. The scholarship pays tuition, \$27.00.

Those who have the Ministry in view may receive from the Warren Fund \$10.00, or a sum which, with a scholarship, will discharge the whole amount of Term bills. They can also receive from the American Education Society, annually, the sum of \$80.00. These several sums will amount to \$120.00; and this, together with the avails of teaching three months in Winter, will nearly if not entirely, defray *all* necessary expenses, board, tuition, books, clothing, &c.

### EXPENSES.

The following statement embraces the principal expenses for the year, viz.:

---

Tuition, \$9 per term.....	\$27 00
Room Rent (if two occupy a room), \$2.....	6 00
Use of Library, Repairs, Sweeping, &c., \$2.....	6 00
Board, from \$1.87 to \$2.25 per week, amounting to about...	75 00
Fuel, Lights, and Washing.....	15 00
	<hr/>
	\$130 00

Juniors and Seniors are charged with a fee of sixty-seven cents a term, to defray the expenses of the Laboratory and Cabinet.

A student who is disposed to practice economy in his habits of living, will find the following a pretty accurate statement of necessary expenses,—on the supposition that he teaches school in Winter:

Board in Club, 34 weeks, at \$1.50 per week.....	\$51 00
Tuition, \$27.00; other charges in College bills, \$13.00.....	40 00
Fuel, Lights, and Washing.....	16 00
	<hr/>
	\$107 00

### PAYMENT OF BILLS.

[Extract from College Laws.]

"The several sums charged in the Term Bills shall be considered as due and payable as soon as the bills are made up according to law; and the Treasurer shall be authorized to demand the same immediately on the bills being delivered to him for collection, with interest on them till they are paid. And, in all cases where the Term Bills of students are not paid within three months after they shall have become due, it shall be the duty of the Treasurer to report the same to the Faculty, and the duty of the Faculty to call the delinquents before them; and if no satisfactory reason for the delinquency be assigned, either to write to their parents or guardians, or suspend them from the privileges of the Institution till payment shall have been made."

### DEGREE OF MASTER OF ARTS.

The degree of A. M. will be conferred on graduates of three years' standing, who have been engaged in literary pursuits, on payment of the usual fee of four dollars. Application should be made to the President or Treasurer as early as the day before Commencement.

## TERMS OF ADMISSION.

---

FOR Admission into the Freshman Class, candidates are examined in Latin Grammar, Cicero's Orations, Virgil, Sallust, Greek Grammar, Xenophon's Anabasis, five Books, and Homer's Iliad, two Books, or an equivalent, Latin Prosody, Writing Latin, Geography, Arithmetic, and the elements of Algebra.

To insure a correct pronunciation of Latin, candidates should early be made familiar with the rules contained under the article "*Orthoëpy*," in the Grammar. A particular attention to Latin Prosody and Scanning, as well as familiarity with some author, as Krebs or Arnold, on Latin Composition, is also especially desirable.

Students may be admitted to an advanced standing, provided that, in addition to the requisites for admission to the Freshman Class, they are found, on examination, thoroughly acquainted with the several studies of the class which they propose to join. Candidates for such standing should, however, be informed that, in consequence of the thorough discipline of the first College year, and the exactness of knowledge which is required of classes, no one can hope, if admitted, to maintain a respectable standing, unless he comes with a high degree of previous preparation. Indeed, it is highly important to the unity and completeness of a public education, that the students should enter College at the commencement of the course. The disadvantages incurred by those who postpone an entrance to a later period, are much more serious than is commonly supposed.

Every student admitted to an advanced standing (with the exception of those who come from other Colleges,) is required to pay a fee of \$5.00 if he enters after the expiration of the Fall Term of the Freshman year ; and of \$10.00 if after the expiration of the Fall Term of the Sophomore year.

All candidates for admission to this College must bring a certificate of good moral character ; and, if from another College, of their regular dismission and good standing. When a young man has been examined and admitted to College, he is required to attend the prescribed exercises, and is subject to the laws of the Institution.

### DECLAMATION AND COMPOSITION.

The classes speak by divisions, in the Chapel, Wednesday afternoon, for which exercise the members of the two upper classes are required to prepare original pieces. In all cases those who are to speak in the Chapel are prepared for the exercise by previous rehearsal before the Professor of Rhetoric.

Written translations from Latin and Greek into English are required of the Freshman Class every alternate week, until the close of the spring term. From that time, English Compositions are read once a week through the course.

---

**RECORD OF MERIT.**

A class-book is kept by each instructor, in which the character of each student's recitation is noted by numbers, and all absences from College exercises are minuted. Demerit for absences and other irregularities is also marked in like manner, and made the basis of discipline. At the close of each term, the average of these marks is recorded, and when desired, communicated to parents or guardians.

**EXAMINATIONS.**

At the close of the Fall Term there is a public examination of all classes in the studies pursued during the term. At the close of the Collegiate year, the several classes are examined in the studies of the year. This examination is protracted and severe, and is conducted in the presence of a committee of gentlemen appointed for the purpose, who make a report to the Corporation respecting the proficiency and deportment of the students.

**COLLEGE HONORS.**

On this "*Record of Merit*," including recitations, examinations, and fidelity, the Faculty, under the direction of the Corporation, have arranged a scheme of honorary appointments for the exercises of Junior Exhibition and Commencement. They have aimed to devise a plan that will secure the advantages of honorable emulation, and, at the same time, avoid many of the incidental evils of College distinctions.

**PUBLIC PERFORMANCES.**

*Commencement* is held on the second Wednesday in August. The exercises in Elocution, for the Parkerian Premiums, are on the preceding evening.

On the day before Commencement, Orations are delivered before the several Societies in College, by gentlemen invited from abroad.

There is an Exhibition of the Junior Class at the close of the Spring Term.

#### CABINET AND LIBRARIES.

The Cabinet is designed chiefly for the benefit of the classes in Natural History, but it is accessible to all the students. It contains two thousand seven hundred specimens in Zoology; four hundred in Botany; fifteen hundred specimens in Mineralogy; one thousand of which, presented by the State, are separately arranged.

These specimens are all arranged under their respective classes, and conspicuously labeled. Valuable accessions have been received from some of the Alumni, and the aid of others is requested.

The value, to students, of the College Library, which now numbers about 10,000 volumes, has been nearly doubled by additions made during the past year.

Besides the College Library, the Institution contains valuable Libraries belonging to the Philomathesian and Philadelphian Societies. All these are opened weekly—on Wednesday—and are accessible to all the students.

#### BENEFACTANT FUNDS.

The College is possessed of funds to the amount of four thousand dollars, the interest of which, as directed by the donors, is applied to the assistance of meritorious students.

The income of the Warren fund is distributed, by direction of the donor, among those members of College who are preparing for the Gospel Ministry, in different sums, according to the necessities of the individual.

Those who have the Ministry in view can also receive from the American Educational Society, annually, the sum of \$80,00. These several sums, together with a Scholarship and the avails of teaching three months in Winter, will nearly, if not entirely, defray *all* necessary expenses, board, tuition, books, clothing, &c.

**SCHOLARSHIPS.**

A Scholarship Fund has recently been secured, which may be made available to those whose circumstances require it. The control of these Scholarships is in the hands of individual proprietors ; but young men of good character and correct deportment can usually obtain assistance from this source. The Scholarship pays tuition, \$27.00.

**EXPENSES.**

The following statement embraces the principal expenses for the year, viz. :

Tuition, \$9 per term.....	\$27 00
Room Rent (if two occupy a room), \$2.....	6 00
Use of Library, Repairs, Sweeping, &c., \$2.....	6 00
Board, from \$1.87 to \$2.25 per week, amounting to about	75 00
Fuel, Lights, and Washing .....	15 00
	<hr/>
	\$130 00

Juniors and Seniors are charged with a fee of sixty-seven cents a term, to defray the expenses of the Laboratory and Cabinet.

A student who is disposed to practice economy in his habits of living, will find the following a pretty accurate statement of necessary expenses,—on the supposition that he teaches school in Winter :

Board in Club, 34 weeks, at \$1.50 per week.....	\$51 00
Tuition, \$27.00 ; other charges in College bills, \$13.00...	40 00
Fuel, Lights, and Washing... ..	16 00
	<hr/>
	\$107 00

**PAYMENT OF BILLS.**

[Extract from College Laws.]

“The several sums charged in the Term Bills shall be considered as due and payable as soon as the bills are made up according to law ; and the Treasurer shall be authorized to demand the same immediately on the bills being delivered to him for collection, with interest on them until they are paid. And, in all cases where the Term Bills of students are not paid within three months after they shall have become due, it shall be the duty of the

Treasurer to report the same to the Faculty, and the duty of the Faculty to call the delinquents before them; and if no satisfactory reason for the delinquency be assigned, either to write to their parents or guardians, or suspend them from the privileges of the Institution till payment shall have been made."

#### PREMIUMS.

The income of the Literary Fund is awarded in sums of from *ten to twenty-five* dollars, to three or four members of College, whose scholarship and fidelity in the discharge of their duties may entitle them to such a distinction.

The Philosophical Prize of \$15.00, arising from a fund given by Prof. George N. Boardman, is awarded in the Senior Class for the best essay upon a subject in Philosophy to be assigned by the Professor in that department.

The avails of the Parkerian Funds are expended in Premiums, awarded to one or two individuals in each of the three lower classes, selected from those who speak in public the evening before Commencement.

The Peace Prize, of \$20.00, offered by the American Peace Society, is awarded, in the Senior and Junior Classes, for the best essay upon some one of the subjects discussed by that Society.

#### DEGREE OF MASTER OF ARTS.

The degree of A. M. will be conferred on graduates of three years' standing, who have been engaged in literary pursuits, on payment of the usual fee of four dollars. Application should be made to the President or Treasurer as early as the day before Commencement.

## TERMS OF ADMISSION.

---

For Admission into the Freshman Class, candidates are examined in Latin Grammar, Cicero's Orations, Virgil, Sallust, Greek Grammar, Xenophon's Anabasis, five Books, and Homer's Iliad, two Books, or an equivalent, Latin Prosody, Writing Latin, Geography, Arithmetic, and the elements of Algebra.

To insure a correct pronunciation of Latin, candidates should early be made familiar with the rules contained under the article "*Orthoëpy*," in the Grammar. A particular attention to Latin Prosody and Scanning, as well as familiarity with some author, as Krebs or Arnold, on Latin Composition, is also especially desirable.

Students may be admitted to an advanced standing, provided that, in addition to the requisites for admission to the Freshman Class, they are found, on examination, thoroughly acquainted with the several studies of the class which they propose to join. Candidates for such standing should, however, be informed that, in consequence of the thorough discipline of the first College year, and the exactness of knowledge which is required of classes, no one can hope, if admitted, to maintain a respectable standing, unless he comes with a high degree of previous preparation.—Indeed, it is highly important to the unity and completeness of a public education, that the students should enter College at the commencement of the course. The disadvantages incurred by those who postpone an entrance to a later period, are much more serious than is commonly supposed.

Every student admitted to an advanced standing (with the exception of those who come from other Colleges,) is required to pay a fee of \$5.00 if he enters after the expiration of the Fall Term of the Freshman year; and of \$10.00 if after the expiration of the Fall Term of the Sophomore year.

All candidates for admission to this College must bring a certificate of good moral character; and, if from another College, of their regular dismissal and good standing. When a young man has been examined and admitted to College, he is required to attend the prescribed exercises, and is subject to the laws of the Institution.

### DECLAMATION AND COMPOSITION.

The classes speak by divisions, in the Chapel, Wednesday afternoon, for which exercise the members of the two upper classes are required to prepare original pieces. In all cases those who are to speak in the Chapel are prepared for the exercise by previous rehearsal before the Professor of Rhetoric.

Written translations from Latin and Greek into English are required of the Freshman Class every alternate week, until the close of the spring term. From that time, English Compositions are read once a week through the course.

---

**RECORD OF MERIT.**

A class-book is kept by each instructor, in which the character of each student's recitation is noted by numbers, and all absences from College exercises are minuted. Demerit for absences and other irregularities is also marked in like manner, and made the basis of discipline. At the close of each term, the average of these marks is recorded, and when desired, communicated to parents or guardians.

**EXAMINATIONS.**

At the close of the Fall Term there is a public examination of all classes in the studies pursued during the term. At the close of the Collegiate year, the several classes are examined in the studies of the year. This examination is protracted and severe, and is conducted in the presence of a committee of gentlemen appointed for the purpose, who make a report to the Corporation respecting the proficiency and deportment of the students.

**COLLEGE HONORS.**

On this "*Record of Merit*," including recitations, examinations, and fidelity, the Faculty, under the direction of the Corporation, have arranged a scheme of honorary appointments for the exercises of Junior Exhibition and Commencement. They have aimed to devise a plan that will secure the advantages of honorable emulation, and, at the same time, avoid many of the incidental evils of College distinctions.

**PUBLIC PERFORMANCES.**

*Commencement* is held on the second Wednesday in August. The exercises in Elocution, for the Parkerian Premiums, are on the preceding evening.

On the day before Commencement, Orations are delivered before the several Societies in College, by gentlemen invited from abroad.

There is an Exhibition of the Junior Class at the close of the Spring Term.

#### CABINET AND LIBRARIES.

The Cabinet is designed chiefly for the benefit of the classes in Natural History, but it is accessible to all the students. It contains two thousand seven hundred specimens in Zoölogy; four hundred in Botany; fifteen hundred specimens in Mineralogy; one thousand of which, presented by the State, are separately arranged.

These specimens are all arranged under their respective classes, and conspicuously labeled. Valuable accessions have been received from some of the Alumni, and the aid of others is requested.

The value, to students, of the College Library, which now numbers about 10,000 volumes, has been nearly doubled by additions recently made.

Besides the College Library, the Institution contains valuable Libraries belonging to the Philomathesian and Philadelphian Societies. All these are opened weekly—on Wednesday—and are accessible to all the students.

#### BENEFICENT FUNDS.

The College is possessed of funds to the amount of four thousand dollars, the interest of which, as directed by the donors, is applied to the assistance of meritorious students.

The income of the Warren fund is distributed, by direction of the donor, among those members of College who are preparing for the Gospel Ministry, in different sums, according to the necessities of the individual.

Those who have the Ministry in view can also receive from the American Educational Society, annually, the sum of \$80.00. These several sums, together with a Scholarship and the avails of teaching three months in Winter, will nearly, if not entirely, defray *all* necessary expenses, board, tuition, books, clothing, &c.

**STARR HALL.**

During the past year a spacious and elegant edifice has been erected for the better accommodation of students. The rooms are large, convenient, and well ventilated—adapted alike for comfort and health. It is admitted by competent and important judges, that no college edifice in New England, furnishes more desirable accommodations for students. It takes its name from a distinguished friend and patron of the College, recently deceased.

**SCHOLARSHIPS.**

A Scholarship Fund has recently been secured, which may be made available to those whose circumstances require it. The control of these Scholarships is in the hands of individual proprietors; but young men of good character and correct deportment can usually obtain assistance from this source. The Scholarship pays tuition, \$27.00.

**EXPENSES.**

The following statement embraces the principal expenses for the year, viz. :

Tuition, \$9 per term.....	\$27 00
Room Rent (if two occupy a room,) \$2 and \$4,.....	6 00
Use of Library, Repairs, Sweeping, &c., \$2,.....	6 00
Board, from \$1.87 to \$2.25 per week, amounting to about	75 00
Fuel, Lights, and Washing.....	16 00
	<hr/>
	\$130 00

Juniors and Seniors are charged with a fee of sixty-seven cents a term, to defray the expenses of the Laboratory and Cabinet.

A student who is disposed to practice economy in his habits of living, will find the following a pretty accurate statement of necessary expenses,—on the supposition that he teaches school in Winter :

Board in Club, 34 weeks, at \$1.50 per week.....	\$51 00
Tuition, \$27.00; other charges in College bills, \$13.00...	40 00
Fuel, Lights, and Washing.....	16 00
	<hr/>
	\$107 00

**PAYMENT OF BILLS.**

[Extract from College Laws.]

"The several sums charged in the Term Bills shall be considered as due and payable as soon as the bills are made up according to law; and the Treasurer shall be authorized to demand the same immediately on the bills being delivered to him for collection, with interest on them until they are paid. And, in all cases where the Term Bills of students are not paid within three months after they shall have become due, it shall be the duty of the Treasurer to report the same to the Faculty, and the duty of the Faculty to call the delinquents before them; and if no satisfactory reason for the delinquency be assigned, either to write to their parents or guardians, or suspend them from the privileges of the Institution till payment shall have been made."

**PREMIUMS.**

The income of the Literary Fund is awarded in sums of from *ten to twenty-five* dollars, to three or four members of College, whose scholarship and fidelity in the discharge of their duties may entitle them to such a distinction.

The Philosophical Prize of \$15.00, arising from a fund given by Prof. George N. Boardman, is awarded in the Senior Class for the best essay upon a subject in Philosophy to be assigned by the Professor in that department.

The avails of the Parkerian Funds are expended in Premiums, awarded to one or two individuals in each of the three lower classes, selected from those who speak in public the evening before Commencement.

The Peace Prize, of \$20.00, offered by the American Peace Society, is awarded, in the Senior and Junior Classes, for the best essay upon some one of the subjects discussed by that Society.

**DEGREE OF MASTER OF ARTS.**

The degree of A. M. will be conferred on graduates of three years' standing, who have been engaged in literary pursuits, on payment of the usual fee of four dollars. Application should be made to the President or Treasurer as early as the day before Commencement.

## TERMS OF ADMISSION.

FOR Admission into the Freshman Class, candidates are examined in Latin Grammar, Cicero's Orations, Virgil, Sallust; Greek Grammar, Xenophon's Anabasis, five Books, and Homer's Iliad, two Books, or an equivalent; Latin Prosody, Writing Latin; Geography, Arithmetic, and the elements of Algebra.

To insure a correct pronunciation of Latin, candidates should early be made familiar with the rules contained under the article "*Orthoëpy*," in the Grammar. A particular attention to Latin Prosody and Scanning, as well as familiarity with some author, as Krebs or Arnold, on Latin Composition, is also especially desirable.

Students may be admitted to an advanced standing, provided that, in addition to the requisites for admission to the Freshman Class, they are found, on examination, thoroughly acquainted with the several studies of the Class which they propose to join. Candidates for such standing should, however, be informed that in consequence of the thorough discipline of the first College year, and the exactness of knowledge which is required of Classes, no one can hope, if admitted, to maintain a respectable standing, unless he comes with a high degree of previous preparation. Indeed, it is highly important to the unity and completeness of a

public education, that the students should enter College at the commencement of the course. The disadvantages incurred by those who postpone an entrance to a later period, are much more serious than is commonly supposed.

Every student admitted to an advanced standing, (with the exception of those who come from other Colleges,) is required to pay a fee of \$5.00, if he enters after the expiration of the Fall Term of the Freshman year ; and of \$10.00, if after the expiration of the Fall Term of the Sophomore year.

All candidates for admission to this College must bring a certificate of good moral character ; and, if from another College, of their regular dismissal and good standing. When a young man has been examined and admitted to College, he is required to attend the prescribed exercises, and is subject to the laws of the Institution.

### DECLAMATION AND COMPOSITION.

The Classes speak by divisions, in the Chapel, Wednesday afternoon, for which exercise the members of the two upper Classes are required to prepare original pieces. In all cases, those who are to speak in the Chapel are prepared for the exercise by previous rehearsal before the Professor of Rhetoric.

Written Translations from Latin and Greek into English, are required of the Freshman Class every alternate week, until the close of the Spring Term. From that time, English Compositions are read once a week through the course.

## RECORD OF MERIT.

A class-book is kept by each instructor, in which the character of each student's recitation is noted by numbers, and all absences from College exercises are minuted. Demerit for absences, and other irregularities, are also marked in like manner, and made the basis of discipline. At the close of each Term, the average of these marks is recorded, and when desired, communicated to parents or guardians.

## EXAMINATIONS.

At the close of the Fall Term there is a public examination of all Classes in the studies pursued during the Term. At the close of the Collegiate year, the several Classes are examined in the studies of the year. This examination is protracted and severe, and is conducted in the presence of a committee of gentlemen appointed for the purpose, who make a report to the Corporation respecting the proficiency and deportment of the student.

## COLLEGE HONORS.

On this "*Record of Merit*," including recitations, examinations, and fidelity, the Faculty, under the direction of the Corporation, have arranged a scheme of honorary appointments for the exercises of Junior Exhibition and Commencement. They have aimed to devise a plan that will secure the advantages of honorable emulation, and, at the same time, avoid many of the incidental evils of College distinctions.

## PUBLIC PERFORMANCES.

COMMENCEMENT is held on the second Wednesday in August. The exercises in Elocution, for the Parkerian Premiums, are on the preceding evening.

On the day before Commencement, Orations are delivered before the several Societies in College, by gentlemen invited from abroad.

There is an Exhibition of the Junior Class at the close of the Spring Term.

## CABINET AND LIBRARIES.

The Cabinet is designed chiefly for the benefit of the classes in Natural History, but it is accessible to all the students. It contains two thousand, seven hundred specimens in Zoölogy ; four hundred specimens in Botany ; fifteen hundred specimens in Mineralogy ; one thousand of which, presented by the State, are separately arranged.

These specimens are all arranged under their respective classes, and conspicuously labeled. Valuable accessions have been received from some of the Alumni, and the aid of others is requested.

The value, to students, of the College Library, which now numbers more than 10,000 volumes, has been nearly doubled by additions recently made ; and by a recent act of the Corporation, a permanent fund has been established for its enlargement.

Besides the College Library, the Institution contains valuable Libraries belonging to the Philomathesian and Philadelphian Societies. All these are opened weekly — on Wednesday — and are accessible to all the students.

## BENEFACTANT FUNDS.

The College is possessed of funds to the amount of four thousand dollars, the interest of which, as directed by the donors, is applied to the assistance of meritorious students.

The income of the Warren Fund is distributed, by direction of the donor, among those members of College who are preparing for the Gospel Ministry, in different sums, according to the necessities of the individual.

Those who have the Ministry in view can also receive from the American Education Society, annually, the sum of \$80.00. These several sums, together with a Scholarship, and the avails of teaching three months in winter, will nearly, if not entirely, defray *all* necessary expenses — board, tuition, books, clothing, &c.

## STARR HALL.

Recently a spacious and elegant edifice has been erected for the better accommodation of students. The rooms are large, convenient, and well ventilated—adapted alike for comfort and health. It is admitted by competent and impartial judges, that no College edifice in New England furnishes more desirable accommodation for students. It takes its name from a distinguished friend and patron of the College, recently deceased.

## SCHOLARSHIPS.

A Scholarship Fund has recently been secured, which may be made available to those whose circumstances require it. The control of these Scholarships is in the hands of individual proprietors; but young men of good character and correct deportment can usually obtain assistance from this source. The Scholarship pays tuition, \$27.00.

## EXPENSES.

The following statement embraces the principal expenses for the year, viz. :

Tuition, \$9 per Term, . . . . .	\$27 00
Room Rent, (if two occupy a room,) \$2 and \$4, . . . . .	6 00
Use of Library, Repairs, Sweeping, &c., \$2, . . . . .	6 00
Board, from \$1.87 to \$2.25 per week, amounting to about . . . . .	75 00
Fuel, Lights and Washing, . . . . .	16 00
	<hr/>
	\$130 00

Juniors and Seniors are charged with a fee of sixty-seven cents a term, to defray the expenses of the Laboratory and Cabinet.

A student who is disposed to practice economy in his habits of living, will find the following a pretty accurate statement of necessary expenses, on the supposition that he teaches school in winter :—

Board in club, 34 weeks, at \$1.50 per week, . . . . .	\$51 00
Tuition, \$27; other charges in College bills, \$13, . . . . .	40 00
Fuel, Lights and Washing, . . . . .	16 00
	<hr/>
	\$107 00

## PAYMENT OF BILLS.

[Extract from College Laws.]

“The several sums charged in the Term Bills shall be considered as due and payable as soon as the bills are made up according to law ; and the Treasurer shall be authorized to demand the same immediately on the bills being delivered to him for collection, with interest on them until they are paid. And, in all cases where the Term Bills of students are not paid within three months after they shall have become due, it shall be the duty of the Treasurer to report the same to the Faculty, and the duty of the Faculty to call the delinquents before them ; and if no satisfactory reason for the delinquency be assigned, either to write to their parents or guardians, or suspend them from the privileges of the Institution till payment shall have been made.”

## PREMIUMS.

The income of the Literary Fund is awarded in sums of from *ten* to *twenty-five* dollars, to three or four members of College, whose scholarship, and fidelity in the discharge of their duties, may entitle them to such a distinction.

The Philosophical Prize of \$15.00, arising from a fund given by Prof. George N. Boardman, is awarded in the Senior Class for the best Essay upon a subject in Philosophy to be assigned by the Professor in that department.

The avails of the Parkerian Fund are expended in Premiums, awarded to one or two individuals in each of the three lower Classes, selected from those who speak in public the evening before Commencement.

The Peace Prize, of \$20.00, offered by the American Peace Society, is awarded, in the Senior and Junior Classes, for the best Essay upon some one of the subjects discussed by that Society.

## DEGREE OF MASTER OF ARTS.

The degree of A. M. will be conferred on graduates of three years' standing, who have been engaged in literary pursuits, on payment of the usual fee of four dollars. Application should be made to the President or Treasurer, as early as the day before Commencement.

## TERMS OF ADMISSION.

FOR Admission into the Freshman Class, candidates are examined in Latin Grammar, Cicero's Orations, Virgil, Sallust; Greek Grammar, Xenophon's Anabasis, five Books, and Homer's Iliad, two Books, or an equivalent; Latin Prosody, Writing Latin; Geography, Arithmetic, and the elements of Algebra.

To insure a correct pronunciation of Latin, candidates should early be made familiar with the rules contained under the article "*Orthoëpy*," in the Grammar. A particular attention to Latin Prosody and Scanning, as well as familiarity with some author, as Krebs or Arnold, on Latin Composition, is also especially desirable.

Students may be admitted to an advanced standing, provided that, in addition to the requisites for admission to the Freshman Class, they are found, on examination, thoroughly acquainted with the several studies of the Class which they propose to join. Candidates for such standing should, however, be informed that in consequence of the thorough discipline of the first College year, and the exactness of knowledge which is required of Classes, no one can hope, if admitted, to maintain a respectable standing, unless he comes with a high degree of previous preparation. Indeed, it is highly important to the unity and completeness of a public education, that the students should enter College at the commencement of the course. The disadvantages incurred by

those who postpone an entrance to a later period, are much more serious than is commonly supposed.

Every student admitted to an advanced standing, (with the exception of those who come from other Colleges,) is required to pay a fee of \$5.00, if he enters after the expiration of the Fall Term of the Freshman year ; and of \$10.00, if after the expiration of the Fall Term of the Sophomore year.

All candidates for admission to this College must bring a certificate of good moral character ; and, if from another College, of their regular dismissal and good standing. When a young man has been examined and admitted to College, he is required to attend the prescribed exercises, and is subject to the laws of the Institution.

## DECLAMATION AND COMPOSITION.

The Classes speak by divisions, in the Chapel, Wednesday afternoon, for which exercise the members of the two upper Classes are required to prepare original pieces. In all cases, those who are to speak in the Chapel are prepared for the exercise by previous rehearsal before the Professor of Rhetoric.

Written Translations from Latin and Greek into English, are required of the Freshman Class every alternate week, until the close of the Spring Term. From that time, English Compositions are read once a week through the course.

### RECORD OF MERIT.

A class-book is kept by each instructor, in which the character of each student's recitation is noted by numbers, and all absences from College exercises are minuted. Demerit for absences, and other irregularities, are also marked in like manner, and made the basis of discipline. At the close of each Term, the average of these marks is recorded, and when desired, communicated to parents or guardians.

### EXAMINATIONS.

At the close of the Fall Term there is a public examination of all Classes in the studies pursued during the Term. At the close of the Collegiate year, the several Classes are examined in the studies of the year. This examination is protracted and severe, and is conducted in the presence of a committee of gentlemen appointed for the purpose, who make a report to the Corporation respecting the proficiency and deportment of the student.

### COLLEGE HONORS.

On the "*Record of Merit*," including recitations, examinations, and fidelity, the Faculty, under the direction of the Corporation, have arranged a scheme of honorary appointments for the exercises of Junior Exhibition and Commencement. They have aimed to devise a plan that will secure the advantages of honorable emulation, and, at the same time, avoid many of the incidental evils of College distinctions.

### PUBLIC PERFORMANCES.

COMMENCEMENT is held on the second Wednesday in August. The exercises in Elocution, for the Parkerian Premiums, are on the preceding evening.

On the day before Commencement, Orations are delivered before the several Societies in College, by gentlemen invited from abroad.

There is an exhibition of the Junior Class at the close of the Spring Term.

### CABINET AND LIBRARIES.

The Cabinet is designed chiefly for the benefit of the classes in Natural History, but it is accessible to all the students. It contains two thousand seven hundred specimens in Zoölogy ; four hundred specimens in Botany ; fifteen hundred specimens in Mineralogy, one thousand of which, presented by the State, are separately arranged.

These specimens are all arranged under their respective classes, and conspicuously labeled. Valuable accessions have been received from some of the Alumni, and the aid of others is requested.

The value, to students, of the College Library, which now numbers more than 10,000 volumes, has been nearly doubled by additions lately made ; and by a recent act of the Corporation, a permanent fund has been established for its enlargement.

Besides the College Library, the Institution contains valuable Libraries belonging to the Philomathesian and Philadelphian Societies. All these are opened weekly — on Wednesday — and are accessible to all the students.

### BENEFACTANT FUNDS.

The College is possessed of Funds to the amount of four thousand dollars, the interest of which, as directed by the donors, is applied to the assistance of meritorious students.

The income of the Warren Fund is distributed, by direction of the donor, among those members of College who are preparing for the Gospel Ministry, in different sums, according to the necessities of the individual.

Those who have the Ministry in view can also receive from the American Education Society, annually, the sum of \$80.00. These several sums, together with a Scholarship, and the avails of teaching three months in winter, will nearly, if not entirely, defray *all* necessary expenses — board, tuition, books, clothing, &c.

### THE WALDO FOUNDATION.

By the liberal bequest of *Ten Thousand Dollars*, received from the estate of the late Mrs. CATHARINE WALDO, of Boston, the Trustees are in possession of additional funds for the aid and encouragement of worthy

young men in the prosecution of their studies. From the income of this fund, *twelve scholarships* are established, — three for each Class — which will be applied to the Term Bills, including room rent, tuition, and other ordinary charges. No student will be honored with this fund, who does not sustain a character for high scholarship and correct deportment. As these scholarships will not exhaust the income of the fund, the remainder will be applied to other deserving young men, at the discretion of the Faculty.

### SCHOLARSHIPS.

A Scholarship Fund has been secured, which may be made available to those whose circumstances require it. The control of these Scholarships is in the hands of individual proprietors; but young men of good character and correct deportment can usually obtain assistance from this source. The Scholarship pays tuition, \$27.00.

### PREMIUMS.

The income of the Literary Fund is awarded in sums of from *ten to twenty-five* dollars, to three or four members of College, whose scholarship, and fidelity in the discharge of their duties, may entitle them to such a distinction.

The Philosophical Prize of \$15.00, arising from a fund given by Prof. George N. Boardman, is awarded in the Senior Class for the best Essay upon a subject in Philosophy to be assigned by the Professor in that department.

The avails of the Parkerian Fund are expended in premiums, awarded to one or two individuals in each of the three lower Classes, selected from those who speak in public the evening before Commencement.

### STARR HALL.

Recently a spacious and elegant edifice has been erected for the better accommodation of students. The rooms are large, convenient, and well ventilated — adapted alike for comfort and health. It is admitted by competent and impartial judges, that no College edifice in New England furnishes more desirable accommodation for students. It takes its name from a distinguished friend and patron of the College, recently deceased.

**EXPENSES.**

The following statement embraces the principal expenses for the year,  
viz. :

Tuition, \$9 per Term, . . . . .	\$27 00
Room Rent, (if two occupy a room,) \$2 and \$4, . . . . .	6 00
Use of Library, Repairs, Sweeping, &c.. \$2, . . . . .	6 00
Board, from \$1.87 to \$2.25 per week, amounting to about*	75 00
Fuel, Lights and Washing, . . . . .	16 00
	<hr/>
	\$130 00

Juniors and Seniors are charged with a fee of sixty-seven cents a term, to defray the expenses of the Laboratory and Cabinet.

A student who is disposed to practice economy in his habits of living, will find the following a pretty accurate statement of necessary expenses, on the supposition that he teaches school in winter :

Board in club, 34 weeks, at \$1.50 per week,* . . . . .	\$51 00
Tuition \$27; other charges in College bills, \$13, . . . . .	40 00
Fuel, Lights and Washing, . . . . .	16 00
	<hr/>
	\$107 00

**PAYMENT OF BILLS.**

[Extract from College Laws.]

“The several sums charged in the Term Bills shall be considered as due and payable as soon as the bills are made up according to law; and the Treasurer shall be authorized to demand the same immediately on the bills being delivered to him for collection, with interest on them until they are paid. And, in all cases where the Term Bills of students are not paid within three months after they shall have become due, it shall be the duty of the Treasurer to report the same to the Faculty, and the duty of the Faculty to call the delinquents before them; and if no satisfactory reason for the delinquency be assigned, either to write to their parents or guardians, or suspend them from the privileges of the Institution till payment shall have been made.”

**DEGREE OF MASTER OF ARTS.**

The degree of A. M. will be conferred on graduates of three years' standing, who have been engaged in literary pursuits, on payment of the usual fee of four dollars. Application should be made to the President or Treasurer, as early as the day before Commencement.

---

\* The expense of board, at the present time, is somewhat higher than the above statement.
